THE DY SERVICE CENTER

Concrete Pump Repair. The right way.

SERVICE ON ALL MAKES AND MODELS

At DY Concrete Pumps Service Center, our 12,000-square-foot facility supports maintenance and repair for all makes and models of concrete pumps and heavy machinery. Qualified technicians bring decades of hands-on experience, and our understanding that downtime directly impacts revenue shapes how every job is handled. From routine service to complex repairs, customers receive responsive, straightforward support focused on getting equipment back to work efficiently.

In addition to concrete pump services, we also provide:

HEAVY EQUIPMENT REPAIR

If it works a job, we work on it.

With experience across a wide range of heavy machinery and truck-mounted equipment, we provide bumper-to-bumper service to keep your entire fleet operating at its best, beyond just concrete pumps.

**WE WORK ON IT ALL.
BUMPER TO BUMPER.**

IN-HOUSE PARTS FABRICATION

All made at DY's Texas Headquarters.

DRIVELINES

Tailored to your needs in industry-leading time.

We provide expert driveline repair, replacement, and in-house driveshaft manufacturing to keep your equipment running at peak performance.

Available Driveline Sizes:

1810

RPL35

1550 SERIES

SPL250

SPL350

HYDRAULIC HOSES & HARDLINES

Made to fit. Built to last.

Using advanced hose assembly tables and tubing benders, we fabricate custom hydraulic hoses and hardlines in-house. Built with American-made Gates hoses, each assembly delivers proper fit, durability, and reliable performance.

Available Fitting Sizes:

NPT

DIN
METRIC

ORB

JIC

Custom fittings are available upon request.

CPMA CERTIFIED BOOM SYSTEMS

Ultra durable for heavy pours.

Custom boom pipe systems are fabricated in-house from ultra-hardened, CPMA Certified KMT pipe and built to match machine specifications for consistent, reliable performance.

24/7 CUSTOMER AND TECHNICAL SUPPORT:

682-999-9859

FEATURED TECHNICAL SERVICES

Supporting long-term performance.

REFURBISHMENTS

Our Texas Service Center delivers complete refurbishment services, including repainting and reconditioning, to restore equipment to like-new condition.

BOOM SYSTEM REPLACEMENTS

Replacing a boom system is a complex, labor-intensive process. The DY Service Team manages removal and installation to ensure a precise fit and reliable performance.

A/C REPAIR & RECHARGING

Equipped with top-of-the-line A/C recharging equipment, the DY Service Center handles everything from simple freon recharges to complete system replacements.

ELECTRONIC REMOTE REPAIR

Our certified technicians repair HBC, Autec, and other remotes, handling everything from glitches to full rewiring, with fast and dependable results.

INSPECTION REPORTS

Our expert technicians provide detailed 40-point Inspection Reports with consulting and maintenance recommendations to keep your fleet running at its best.
